Comments:

We were on vacation from Edmonton when we picked up a nail on the road. It was late Saturday night, and even if we could limp into Victoria on Sunday on our spare tire, it was going to be tough to find someone to repair the tire on a Sunday. We called Dumont Tires emergency line, fully expecting to pay over \$100 for the repair. The owner came in, not only after hours, but from holidays as well and fixed our tire, and only charged us \$22! Fantastic people. Words cannot express how grateful we are!
