I just wanted to pass this on. I had a flat tire on 03/13. I brought my car into a local Canadian Tire. No help whatsoever. I drove my car over to the location on Speers Road. They stopped what they were doing to assist me. My tire was beyond repair so they lent me a spare to get home until I could return with my set of summer tires. I am blown away by the amazing customer service i experienced and wanted to share. The gentleman who helped me at the front desk was Scott I wish I could remember the mechanic's name as well. Thanks.
